Dear Mr. Palmer:

The Kentucky Environmental and Public Protection Cabinet, pursuant to Section 175A(b) of the Clean Air Act, hereby submits to the U.S. Environmental Protection Agency (EPA) a final revision to the State Implementation Plan (SIP).

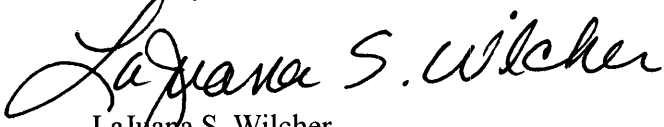

Specifically, Kentucky wishes to redesignate the Kentucky portion of the Huntington-Ashland, WV-KY, nonattainment area (Boyd County, Kentucky) as attainment for the 8-hour ozone National Ambient Air Quality Standard. This request includes:

- Current ozone monitoring data demonstrating attainment of the ambient standard;
- A 2002 emissions inventory; and
- Kentucky's plan to maintain the 8-hour ozone standard, including a projected emissions inventory through 2018 showing maintenance of emission levels.

A public hearing was held July 20, 2006, at the FIVCO Area Development District building in Catlettsburg, Kentucky. The Cabinet's response to information received during the public comment period is included in this submittal.

Your prompt consideration of this request is appreciated. If you have any questions or comments concerning this matter, please contact Lona Brewer at the Division for Air Quality at (502) 573-3382.

Sincerely,

LaJuana S. Wilcher
Secretary
